The journal publishes peer-reviewed original research, along with reviews, editorials, and opinions and critics.

18-11-2021 In studies of melatonin for acute COVID-19, the group given melatonin had 1,400% better outcomes than the control group, a paradigm shifting discovery on its own. The method of using butyrate and melatonin to express GPR109A receptors before high dose nicotinic acid ingestion is a modification of the “Niatonin Method” which can work miracles on inflammatory ...

30-11-2021 The New Orleans City Planning Commission on Tuesday unanimously recommended that the City Council approve a zoning change that would allow for a renovation of one floor of the New Orleans jail in order to accommodate people incarcerated in the jail who have acute and subacute mental illness.

New York State Workers' Compensation Board New York Non-Acute Pain Medical Treatment Guidelines First Edition, September 15, 2014 1 GENERAL GUIDELINE PRINCIPLES The principles summarized in this section are key to the intended application of the New York State Medical Treatment Guidelines (MTG). Medical Care MEDICAL CARE

13-12-2021 The acquisition also expands Paradigm’s offerings to include other related services, including post-acute care, home modifications, prosthetics and infusion therapy. “New technologies, aging demographics and infectious disease-related risks are key factors driving increased demand and new opportunities,” Watts said.
Acute care is a branch of secondary health care where a patient receives active but short-term treatment for a severe injury or episode of illness, an urgent medical condition, or during recovery from surgery. In medical terms, care for acute health conditions is the opposite from chronic care, or longer term care. Acute care services are generally delivered by teams of health care professionals.

01-03-2013 🌈 This evidence-based clinical practice guideline is a revision of the 2004 acute otitis media (AOM) guideline from the American Academy of Pediatrics (AAP) and American Academy of Family Physicians. It provides recommendations to primary care clinicians for the management of children from 6 months through 12 years of age with uncomplicated AOM. In 2009, the AAP...
